## CATEGORY SCORES BENCHMARKING

Scenario analysis Yes, qualitative and quantitative

Each category score in the bar chart represents the progression within each scoring level. Some categories have not been included for category score breakdown as either not enough questions feed into these categories to give a representative score or they are not scored at both Management and Leadership levels. Scoring categories are groupings of questions by topic. They are sub-groups of the 2023 questionnaire modules and are consistent across all sectors. Weighting applied to each category varies across sectors to highlight the areas most important to environmental stewardship in specific sectors.

To find out more about category weightings for each sector, please download the ['CDP Scoring Categories and Weighting'](#) documents.
