

Multimodal Logistics East-North traffic

With our multimodal end-to-end logistics solutions, we not only offer efficient connections between major economic regions in the Czech Republic, Hungary, Germany and Austria, but also direct shipping connections thanks to our connection to the Baltic Sea ports. We provide reliable and efficient transport of your containers, swap bodies, and craneable trailers throughout Europe.

Your benefits at a glance

- Non-stop connections with attractive transit times between the main industrial centres in Europe with end-to-end solutions including first and last mile – with transshipment options on request
- Plannable door-to-door service for you and your freight over long distances
- Assured capacity and universal equipment (swap bodies with side and top loading and unloading, containers, ...)
- Reliable and plannable departures ensure continuous factory supply – several times a week with defined timetables
- Sustainable transport solution with our 45ft HCPW containers by rail – and no loss of loading space
- Handling of empty container supply as well as collection and delivery by truck to your end customer
