

TransFER Krusevac – Budapest – Duisburg

The TransFER Krusevac–Budapest–Duisburg creates a direct connection between the economic centres of Western and Central Europe and the Western Balkans. From Kruševac, we offer one round trip per week via the BILK terminal in Budapest to Duisburg and back. We also provide a fast and efficient onward connection to the Benelux countries. We transport 45-ft containers and swap bodies for customers in all industries. A reliable transport solution on sustainable rail that meets your international logistics requirements – getting your goods to their destination quickly and reliably.

Your benefits at a glance

- Fixed timetable with attractive transit times for plannable and on-time transport.
- Numerous connections to and from Serbia, Hungary, Germany, Benelux and Southeastern Europe
- All necessary additional forwarding services, including first and last mile organisation, state-of-the-art warehouse logistics and professional customs clearance
- Reloading, reporting and monitoring, equipment positioning and utilisation, back-up solutions on the road and a single point of contact for every customer
- Suitable for customers in all sectors, such as the beverage, chemical, building materials, steel and automotive industries
